Have you ever asked yourself, why with every call you will receive professional advice?

One answer is:

Jan.

Our service team is looking forward to helping you. Application consulting, catalogue requests and orders: +49 4442 982-9166

We do it.

Pöppelmann KAPSTO® service advantages.

On-site consulting.

Karl and all the other Pöppelmann KAPSTO® sales representatives have fixed sales territories and are always on site for you – granting a fast and flexible appointment scheduling. Thanks to a long-term experience, they have an extensive product and application knowledge and are happy to consult you.

Available from stock.

Our product range with more than 3,000 versions is thanks to Günter and our whole production team always available from stock. You can rely on an optimal stock availability and a fast delivery performance by KAPSTO®.

Online product search with CAD download.

Intuitive search on www.poeppelmann.com/kapsto for determining the appropriate protective cap or plug from more than 3,000 versions. Each protection element is available as CAD data download thanks to Elisabeth and the colleagues from the Design Department. Your advantages: time-saving and faster reaction times in the design phase. The CAD/CAM network provides a fast data exchange and an easy transfer of existing 3D customer data.

Individual protective elements.

On request, our technical department will develop individually tailored solutions. Usually, there is no need to construct new moulds from scratch. In most cases, it is sufficient to make special mould inserts from existing mould.

No minimum order quantity.

Peter and our whole dispatch team are working to your requirements. This applies to every single delivery. We do not have standard packaging units. You can order every quantity which you would like.

Free samples.

Claudia and our entire inside sales team will help you to find the perfect solution. We are happy to send you free samples for testing and to show you a selection of choices. Once decided on the perfect cap or plug, you can rely on a fast and perfect order processing.

Special colours and materials.

Next to the standard versions of our items, we are able to produce our caps and plugs in different materials and colours.

– Please state the desired colour or material in your request.

Special parts at record speed.

Sebastian and his colleagues will put your project in the fast lane: our new optional FastLane service makes it possible to develop and produce individual customised parts with super-fast turnaround time. In this way, we can react within an extremely short time and counteract time bottlenecks.

Next day delivery.

With our next day delivery service, you can conveniently order in-stock items on weekdays before 4:30 pm (Fridays before 2 pm) and receive your goods by midday the next working day at the latest. Our service only applies to max five item positions of max 100 kg for national deliveries within Germany.
